**Smoking in public places – new legislation from 1 July**

The New regulations banning smoking in public places in England will come into force on 1 July 2007. Church of England representatives have met with the Head of the Smokefree team from the Department of Health, together with their consultant on publicity matters to discuss how the Church and the Department could work together positively to minimise the impact and to understand the implications of the legislation.

Information about how the legislation specifically affects churches is available from [www.london.anglican.org/Smoking-Regulations](http://www.london.anglican.org/Smoking-Regulations). The Smokefree England fact sheet for churches is also available to download.

**Green Corners Competition – examples wanted for photo opportunities**

The search is on to find London's 'green corners', places which few people know about but which are well loved by the capital's bees, birds and insects. Part of the Conservation Foundation's 25th anniversary programme, the Green Corners Awards celebrate those Londoners whose secret gardens make the city a brighter and more attractive place to live and work and also help improve its biodiversity.

Any space, however small, is eligible for nomination, provided it has been created within the past 25 years and is visible to someone other than its owner. Visit [www.conservationfoundation.co.uk/currentprojects.php](http://www.conservationfoundation.co.uk/currentprojects.php).
