London
United Kingdom

4 July 2023

Dear Members of the Committee

Independent auditors' report – Project audit in relation to the work of the City Churches Grants Committee (CCGC)

The period of audit covers 1 January 2021 to 31 December 2021.

This report is produced in accordance with the terms of engagement for the purpose of reporting to the trustees of the London Diocesan Fund and the CCGC

The purpose of the limited scope audit is to provide a report expressing an opinion over the accuracy of the annual report in accordance with ISA 800/805 covering whether the annual report has been appropriately prepared.

Opinion

In our opinion, the funds distributed by the Trust for London have been completely and accurately set out in the Annual Report and, in all material respects, have been confirmed by the respective Churches to have been received and applied for the intended purposes in line with the policies and procedures of the CCGC.

Whilst we have issued a separate report on our observations and key findings, there were no control points raised during the course of our transactional testing other than that there needs to be further communications with the churches to encourage regular, responsive communication with the CCGC in connection with the receipt, application and impact of distributions received from Trust for London. From our work only 90% of the churches responded to our enquiries.

Basis for opinion

We conducted our audit in accordance with generally accepted auditing standards, specifically International Standard on Auditing 805 "Special Considerations – Audits of Financial Statements Prepared in Accordance with Special Purpose Frameworks". These standards require that we plan and perform the audit to ensure that the application of funds in the Annual Report complies with the provisions of the distributions from Trust for London. An audit includes examining, on a test basis, evidence supporting the amounts in the Financial Report. An audit also includes an assessment of

the accounting principles used and significant estimates made by management, as well as an evaluation of the overall Financial Report presentation and of the risks of material differences as a result of fraud. We believe that our audit provides a reasonable basis for our opinion.

We are independent of the London Diocesan Fund and more specifically the members of the CCGC in accordance with the ethical requirements that are relevant to this audit. and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Use of our report

This report is made solely to the charity's trustees, as a body and the committee members of the CCGC. Our audit work has been undertaken so that we might state those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the charity and the charity's members as a body, for our audit work, for this report, or for the opinions we have formed.

Responsibilities of the Trustees and management for the Financial Report

The Trustees and CCGC management are responsible for the preparation of the Annual Report and the fair presentation of the Annual Report. This includes determining that the basis for the preparation of the Financial Report is acceptable in the circumstances, and for such internal control as the trustees determine is necessary to enable the preparation of the Annual Report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the Annual Report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial statement. It is our responsibility to form an independent opinion, based on our audit, on the Annual Report and to report our opinion to you.

**City Churches Grants Committee
Annual Report 2021**

Dear Stakeholders

City Churches Grants Committee - 2021 Audited Annual Report

As the Chair of the City Churches Grants Committee (CCGC) it is my pleasure to present the audited 2021 Annual Report.

As the Report outlines, the Committee undertook a review of the methodology of the CCGC in order to ensure funds were distributed in accordance with the defined charitable purposes.

Clarity has been given to the eligible churches as to what can and cannot be applied for and a more transparent application process has been established. Clearer reporting and closer monitoring of grants is being established. A review of the needs of the City Churches in the light of their requirements for repairs and development of their work following the pandemic is leading to the development of a clear strategy for the use of funds to secure their sustainability for the next stage of their life.

We have also considered the processes for tracking funds from application to final reporting at the end of a project, especially in the light of the fraud, the inquiry into which is published [here](https://www.london.anglican.org/wp-content/uploads/2023/07/LDF-Fraud-Enquiry-Final-Report.pdf). (<https://www.london.anglican.org/wp-content/uploads/2023/07/LDF-Fraud-Enquiry-Final-Report.pdf>).

Thanks to all those who support the churches to continue to contribute to the spiritual and cultural life of workers, visitors and residents, making it a better place to work, a nicer place to visit, and a good place to live. The flourishing of the churches is the overall aim of the work of the CCGC.

Yours faithfully

Luke Miller
Chair - City Churches Grants Committee

INTRODUCTION TO THE CITY CHURCHES GRANTS COMMITTEE

History

In August 1878 a Royal Commission was established to investigate the various parochial charities. Its conclusion led to the City of London Parochial Charities Act 1883 and provided that the largest 5 parishes should continue to administer their own charitable endowments, but that the charities of the remaining 107 parishes (consisting of about 1400 separate charitable gifts and bequests stretching back over 400 years) should be administered by a new corporate body officially called the Trustees of the London Parochial Charities. For most of its history it was known as the City Parochial Foundation, but since 2010 it has been known as Trust for London. The Trust assumed trusteeship of the **City Parochial Foundation**, which held the ecclesiastical endowments. There are now two funds held by Trust for London. These are the **Central Fund** and the **City Church Fund**. Income from these two funds is distributed in a formula laid down by a Scheme (“the Scheme”) of the Charity Commissioners dated 31st December 2004, pursuant to the City of London Parochial Charities Act 1883.

59.8% of all income is passed to the Central Fund, whilst 40.2% is passed to the Church Fund.

The Central Fund has an overarching objective of supporting the ‘poor of London’ and its priorities change from time to time.

Of the 40.2% that goes to the City Church Fund, how this is distributed is further governed by the Scheme. There are pre-payments before distributions from this Fund to cover the salary and housing costs of the Dean of King’s College. The amount that remains in this fund is then divided with two-thirds to the Church Commissioners, and one-third to the Bishop of London, distribution of which is advised by **the City Churches Grants Committee (CCGC)**. The amount given to the Church Commissioners is then distributed by them, at their discretion, to the Dioceses within the Metropolitan Police Area. This gives London approximately a 44% share of the Church Commissioners’ element.

The portion given to the Bishop of London, to be advised by

the CCGC, is also subject to certain pre-payments. These are the **Schedule VII payments**, the administrative expenses, and the insurance of the City Churches. The first two are mandatory, whilst the insurance is optional.

The City Churches and Churchyards

Within the Square Mile there are more than 30 Anglican Churches and a number of Churchyards. A small number of these are mediaeval survivals which apart from the Guildhall are the only buildings older than the Great Fire of London still in use in the City of London. Within this number there is a unique grouping of 17th century churches, many by Sir Christopher Wren. There is also a group of Blitzed churches set in Churchyards. These together with the land around the open churches make up 75% of the public open space in the City and are a crucial contribution to the workability and liveability of the City.

OUR MISSION

The advancement of religion by: The repair, restoration or preservation of the fabric and the contents of churches and the maintenance of services therein.

The Context of the last 35 Years

In the mid 1990s the Templeman Report into the City Churches found that they were in a very poor state of repair, were financially unsustainable without support from the wider Diocese of London, and made very limited contribution to the communities they served. The conclusion of the report was that all except four should be closed. Bishop Richard Chartres rejected the conclusions of the report and determined to use the CCGC to ensure that they could stay open.

A land survey was commissioned to establish ownerships and ensure proper valuations were done of the use of church land in the City. This began the process of transforming the financial sustainability of the churches. Grants ensured good professional advice was received in engaging with developers and major businesses as well as with Transport for London so that the setting of churches was preserved in the context of planning, rights of light, scaffolding licences, party wall agreements and so on. Income was secured which up to that time had been lost.

Grants were made in order to enable the churches to develop their work and maintain the buildings. Some projects were seed funded to enable them to go forward. There were projects which put buildings in good order to enable a varied use which would bring in a sustainable income and at the same time serve the residential, commercial and civic communities.

The overall strategy was to enable churches to be open, have a varied use, including worship and mission but also community activity, and to be in reasonable order. One church

which had been closed for 25 years to Anglican worship was reopened and now has a Sunday as well as a weekday congregation.

Contrary to the confident expectation that the churches were in terminal decline, they are all now basically sustainable, have a worshipping life and in many cases a vigorous worshipping life, and serve their communities and the wider City in multifarious ways. It remains imperative that the Mission and Business Action Plans of all the churches remain current and adaptable enough to reflect the changing/evolving demographic of the City. This could foresee more churches collaborating, whether by means of structural or organisational changes, enabling each church to be effective in its mission and ministry whilst ensuring the best use of resources.

Recent Changes

With changes of personnel in the archdeaconry and a new Bishop, over the last 18 months a review of the charitable purposes and methodology of the CCGC has been undertaken. Clarity has been given to the eligible churches as to what can and cannot be applied for. A much clearer application process has been established. Clearer reporting and closer monitoring of grants is being established. A review of the needs of the City Churches in the light of their requirements for repairs and development of their work following the pandemic is leading to the development of a clear strategy for the use of funds to secure their sustainability for the next stage of their life.

Personnel

The CCGC has funded a Clerk who also serves as the Operations Manager for the Archdeaconry. Recognising the need for closer support for the applications, monitoring and reporting of grants, a Grants Officer is in the process of being recruited. Other personnel funded by the CCGC are outlined below.

Current Activity Secured by the CCGC Includes

- Significant repairs across many churches including
 - one project which will make a church carbon neutral, and
 - another which will secure an iconic church tower.
 - A major grant is both restoring a church and providing a community hall for the City's small residential population of social housing tenants.
- The City Churches together provide many cultural events, mainly music, but also exhibitions, which are free to access and do not require people to worship. Much of this is in partnership with the City Events Team

IMPACT

The Aldgate Centre will provide a flexible hall space open to residents and workers in the Aldgate area to focus on community cohesion. Partnership with the Corporation of London and Aldgate Connect enables local people to work collaboratively with organisations towards their own events and other programmes.

helping to make the city a destination for tourists and a better place for workers.

- There are more concerts and musical recitals in the City Churches in any given year than in the Barbican and the South Bank put together
- Two cafes and a number of coffee barrows and trading stalls
- Projects to serve key and 'hidden' workers, the rough sleeping population in the City (which is one of the largest in the UK), those with English as an additional language and young people.
- Significant partnerships with charities include those working in the fields of youth mentoring, people with addiction, and with the Palestinian people, and the developing world.
- Chaplaincy to the City Corporation and the development of a chaplaincy model of ministry more widely across the City and its various activities.
- Supporting Curacy posts in the City, to ensure capacity development which enables first Incumbents to experience spreading the Gospel, mission and evangelism in an urban environment that includes gathered congregations
- Leveraging in further funds by building relationships with other grant making bodies such as the National Lottery and large trusts.

Future Need

Each church has a quinquennial inspection of its fabric. A review of the reports and their recommendations show that approximately £35 million needs to be spent in the next 5 to 10 years to continue the process of renewal of the post war repairs. Using the CCGC to fund some of this work directly and more importantly to leverage in further funding will enable this unique group of City Churches to be saved for the next generation. There is no state funding for this work that will enable the contribution of the churches to continue.

The worshipping life of the churches is developing considerably following the pandemic and the changes of working patterns. There is a need to provide services for those who come to the city as a visitor and tourist destination breaking out of the pattern of nine to five opening which has been characteristic of the last 20 years or so. The Pandemic also highlighted the continued need for spaces that are beneficial to the mental health of workers, visitors and the residential community. The City Churches, and their connected church yards, continue to provide these sanctuaries.

Impact of the work of the CCGC

Of all the great World Cities and financial centres, the City of London is unique in boasting a concentration of churches of deep heritage. The churches contribute to the spiritual and cultural life of workers, visitors and residents, making it a better place to work, a nicer place to visit, and a good place to live. The core activity of proclaiming the Kingdom of God is manifest in their actions and their impact helps to reveal the good work of the Kingdom even in this world. That impact would be minimised, if not removed, were it not for the support that they have received from their historic endowments dispersed from Trust for London by the Bishop on the advice of the City Churches Grants Committee.

Notes on grants made during 2021

| Parish Number | Church | Comments | Status of Project/Works |
|----------------------|---|---|--------------------------------|
| 0101 | All Hallows by the Tower | Joint project with St Stephen Walbrook to encourage music at services within the City, to attract visitors and workers to the Churches. Funds written back to re-allocate to St Stephen Walbrook. | In progress |
| 0102 | St Andrew by the Wardrobe | Major refurbishment project required by the failure of the 1950s electrical system which will also mean that the church is relit, carbon neutral, has disabled access and is refurbished. | In progress |
| 0104 | St Bartholomew the Great | Repairs to the Lady Chapel. | Completed |
| 0106 | St Botolph Aldgate | Part funding for a Curacy post, matched by the Strategic Ministry Fund. Original grant pre-2021 funds a huge project which supports the complete rebuilding of the 1980s church hall and its development into an income generator which will secure the financial future of this parish for the next 30 years. Some of this money will be of wider benefit to the Diocese via Common Fund as income begins to flow. Additionally a portion of the income will be cycled back to CCGC to fund other projects. | In progress |
| 0110 | St Edmund King & Martyr w St Mary Woolnoth | Emergency works to net the tower at St Mary Woolnoth following a stone fall. Funding for surveys and fundraisers to begin a major refurbishment project. | In progress |
| 0113 | St James | Works to the church tower and clock. | In progress |

| | | | |
|-------------|--------------------------------|---|--------------------------|
| | Garlickhythe | | |
| 0114 | St Magnus Martyr | Works, partially supported by the Heritage Recovery Fund, to the roof, the crypt and to put in live streaming equipment. | In progress |
| 0115 | St Margaret Lothbury | Live streaming equipment | Completed |
| 0117 | St Mary le Bow | Repair to failed sesame lift at the front entrance of the church. | In progress |
| 0121 | St Sepulchre Holborn | Curate resettlement grant. | Completed |
| 0122 | St Stephen Walbrook | (1) Final payment in respect of commitments made to provide choral services in partnership with St Martin in the Fields 2015-2020. (£10k) (2) Joint project with All Hallows by the Tower to encourage music at services within the City, to attract visitors and workers to the Churches (£29k) | Completed In progress |
| 0123 | St Vedast Foster Lane | Works to the parapet wall. It should be noted that some of the grant listed above includes the amount paid towards the stipend of Interfaith worker at St Paul's Cathedral. | Completed |
| 0124 | All Hallows London Wall | To support the maintenance by the Corporation of the ancient London Wall where it abuts the church. It was agreed that this payment, agreed by the previous Clerk / Head of Operations, though unusual, should be honoured as it would maintain good relations with the Corporation. | In progress |
| 0125 | St Andrew Holborn | The CCGC was funding the pension of a priest who was helped to retire early. The cost of the retirement was less than the commitment that had been made to future payments from CCGC funds had the priest remained in post. | Completed |

| | | | |
|------|-------------------------------|---|-------------|
| 0128 | St Dunstan in the West | The electrical system in this church was condemned and the church is engaged in a major project to rewire, re-light and redecorate as well as developing an office and other ancillary spaces. Without this grant the church would have had to have been closed on health and safety grounds. | In Progress |
| 0130 | St Katharine Cree | Funding for the Eastminster project curate and programme. The project aims to lay the groundwork for new worship services in City Churches with the poorest at their heart . It will develop lay (and in time ordained) leadership from among the poorest to pioneer and lead these churches with homeless people, and with low-wage and insecurely employed ‘hidden workers’ (such as office cleaners, hospitality staff, and construction workers). It aims to united missional communities and will include services for diaspora communities. | In Progress |
| 0131 | St Lawrence Jewry | The Corporation of the City of London is spending £3.5 million on a complete refurbishment of this church. This contribution to the project recognises the benefit received by the church from this work. | In Progress |
| 0132 | St Margaret Patten | Payment for office space for Archdeacon of Hackney, who additionally took services in City Churches. The income also provided seed funding for the church to use for further works to the building and for services. | Completed |
| | Wren 300 | A project to develop activities in a number of City Churches during the 300th anniversary of Sir Christopher wren's death which will build relationships with the national Heritage Lottery Fund and prepare the ground for a major buildings-related fundraising bid to them. | In Progress |

Discretionary Fund Grants

The Discretionary Fund allows small direct payments and immediate and urgent support to churches. This is not established in the Scheme but is an agreed way of working which allows the charitable funds to be deployed effectively. The amount in the Fund and the way of disbursement is agreed by the Bishop on the advice of the CCGC.

Currently the fund is capped at £100,000 in any one year, with no single grant being more than £10,000.

The Bishop delegates the application of the discretionary fund to the Clerk in consultation with the Archdeacon of London.

Criteria for the Discretionary Fund

Discretionary grants must:

1. Be used to support the maintenance of buildings or the provision of services. They may do this by means of supporting strategic outputs – for instance supporting an aspect of ministry or mission which will help to sustain a building or services.
2. Be either urgent or in some other way reasonably not the subject of a normal application. For instance, urgent building works, health & safety issues.

Insurance Scheme

The City Churches group insurance scheme, Parish Guard, significantly reduces premiums and makes funds available for the maintenance of buildings. It is managed by the Archdeaconry of London which pays the insurance premiums centrally using funds from the CCGC, but each church is individually insured. In effect this means that each church receives a grant equivalent to their insurance premium from the CCGC each year.

The maximum level of excess is taken up. This is currently £2,500 (as opposed to the minimum of £500) and greatly reduces the overall cost of the Premium. Additionally VAT costs are also not covered under the policy, as parishes are able to claim for VAT from the Listed Places of Worship Grants Scheme. As part of the insurance scheme should they need to make a claim parishes receive grants to cover their costs between the minimum level of excess and the maximum.

Premium Paid

2021 – 2022 £167,802.46 (including insurance premium tax)

Salaries

Trust for London permits some of the funds to be paid direct to those providing support for the churches without going through a GCC or a PCC. These are for stipends and salaries pay-rolled via the LDF, and already included in the table above.

| | | |
|--|----------|---|
| St Botolph Aldgate Curacy | 42,874 | 0.5 match funding for a curacy over three years funded through the Church of England Strategic Development Fund. |
| Holy Sepulchre Holborn Curacy | £61,500 | 0.5 match funding for a curacy over three years funded through the Church of England Strategic Development Fund. |
| Two Cities Area Director of Mission | £182,912 | Part funds the Archdeacon of Charing Cross who is also Area Director of Mission |
| Clerk | | Clerk to the CCGC |
| Interfaith Cleric | | Final contribution of a three-year grant to fund an Interfaith Cleric based at St Paul's Cathedral |
| Receptionist at the Old Deanery | | Supports the Bishop to enable her to be able more effectively to work across the Deanery. |
| Bishop of London parliamentary assistant and Youth Council | | The rationale was that this post holder would develop a youth council for the Deanery and Bishop. Once the post-holder was in place, this did not prove possible. |

APPENDIX II

The Scheme defines the City Churches Grants Committee as being the Archdeacon of London who is the Chair, the Area Dean and Lay Chair of the City Deanery Synod, the General Secretary of the London Diocesan Fund (LDF) and the Chair of the Diocesan Finance Committee (DFC). The Committee aims to meet quarterly, but is also able to react to urgent applications in person and/or by email.
